A Great "Buy" for the Trade or the Alert Landscape Architect

An unusual combination of circumstances enables me to make an
UNUSUAL OFFER

of *Daphne cneorum*

This charming little prostrate Evergreen did not come through the Winter in good shape because of lack of snow. It became necessary to cut back the best part of 10,000. To make up for this, Nature provided bountiful moisture this past Spring and Summer with the result that we can now offer exceptionally fine specimen plants of a very bushy character. For bordering driveways or for any kind of border, *Daphne* will always excel in both gracefulness and fragrance. Also fine for rock gardens.
